**Habberley & Blakebrook
needs a new direction.
on May 1st vote .**

IT'S TIME FOR CHANGE!

*For years residents of
Habberley & Blakebrook
have had to put up with:*

Conservatives with:

- Poor record on street cleaning**
- Year on year above inflation
Council Tax rises**
- Pot hole galore - Road repairs
years behind schedule.**

and

and

Health Concern Councillors you never hear from with no clear direction or policies.

***Dr Richard Taylor has done
so much for us all, but....***

The Health Concern Council Group don't have a clue, and made a mess of Wyre Forest when running it a few years ago.

A Labour Party, locally so few councillors it has become irrelevant. Nationally, Gordon Brown is over seeing post office closures, economic

recession, inflation rising, falling education standards, a failing NHS

**And Now he's increasing
YOUR income tax from
10p to 20p in the Pound**

BUT

With your help on polling day; The Lib Dems working with the Liberals could form the official opposition. They would:

Hold the Conservatives to account

Defend your interests

**Work for the benefit of the
community**

**Offer a real alternative to the tired
old squabbles between the
Conservatives and Health Concern**
